Panchang - Detailed Analysis

Tithi (Lunar Day)

Tithi is the angle between सूर्य and चंद्र divided into 12° segments. There are 30 tithis in a lunar month - 15 in Shukla Paksha (waxing) and 15 in Krishna Paksha (waning). The tithi at birth profoundly influences the native's mental and emotional nature.

Vara (Weekday)

The weekday of birth is ruled by a specific planet whose energy colors the native's personality. Each day carries the resonance of its ruling planet.

Nakshatra (Birth Star)

The Nakshatra at birth is the single most important factor after the लग्न. It defines the native's innate nature, instincts, and karmic patterns.

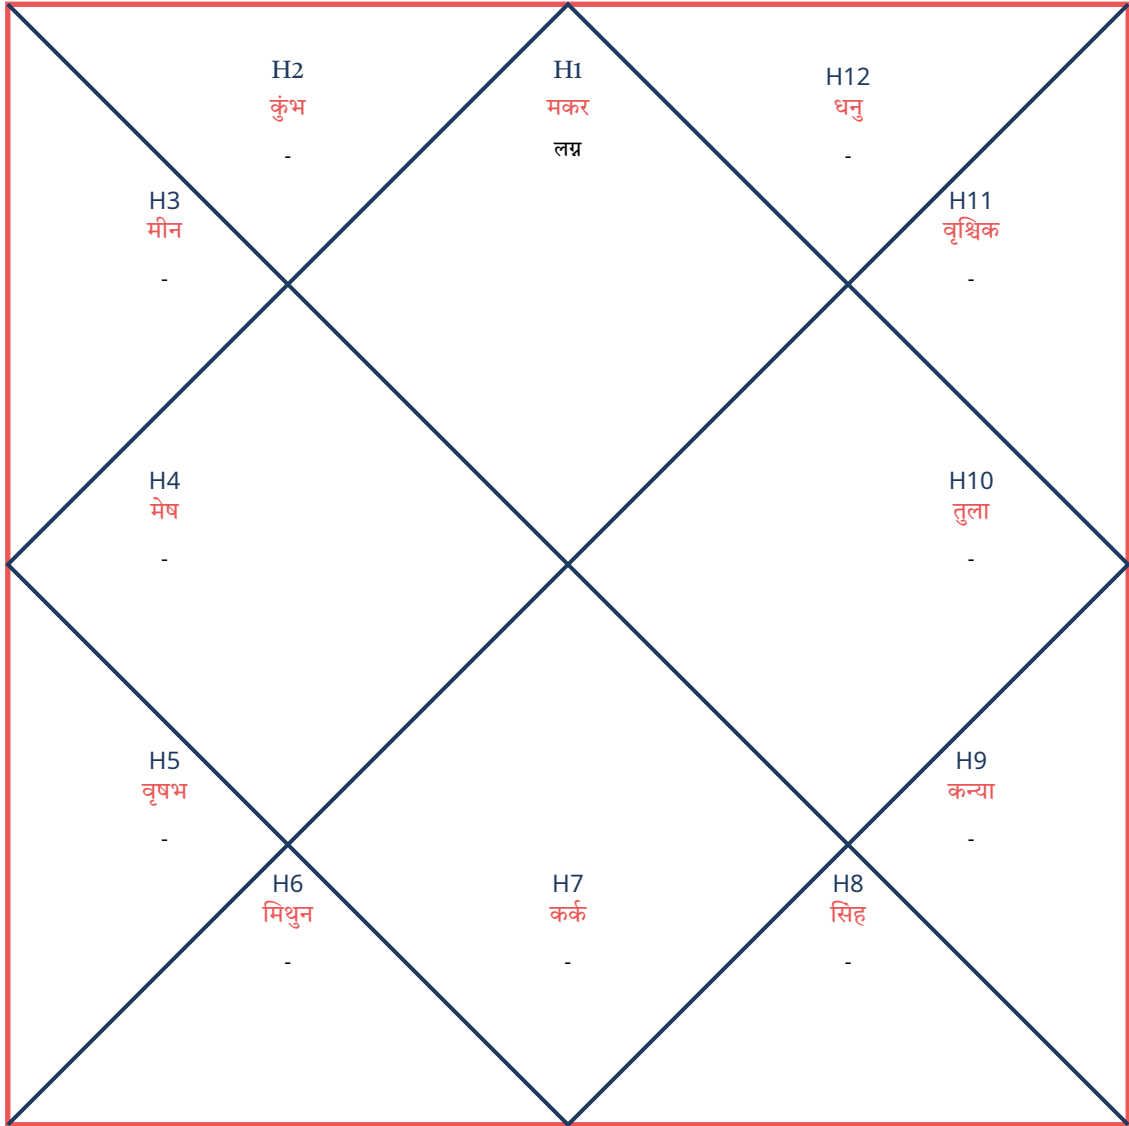

Yoga (27 Yogas)

Yoga is calculated by adding the longitudes of सूर्य and चंद्र, then dividing by $13^\circ 20'$. There are 27 Yogas, each with specific effects.

Karana (Half-Tithi)

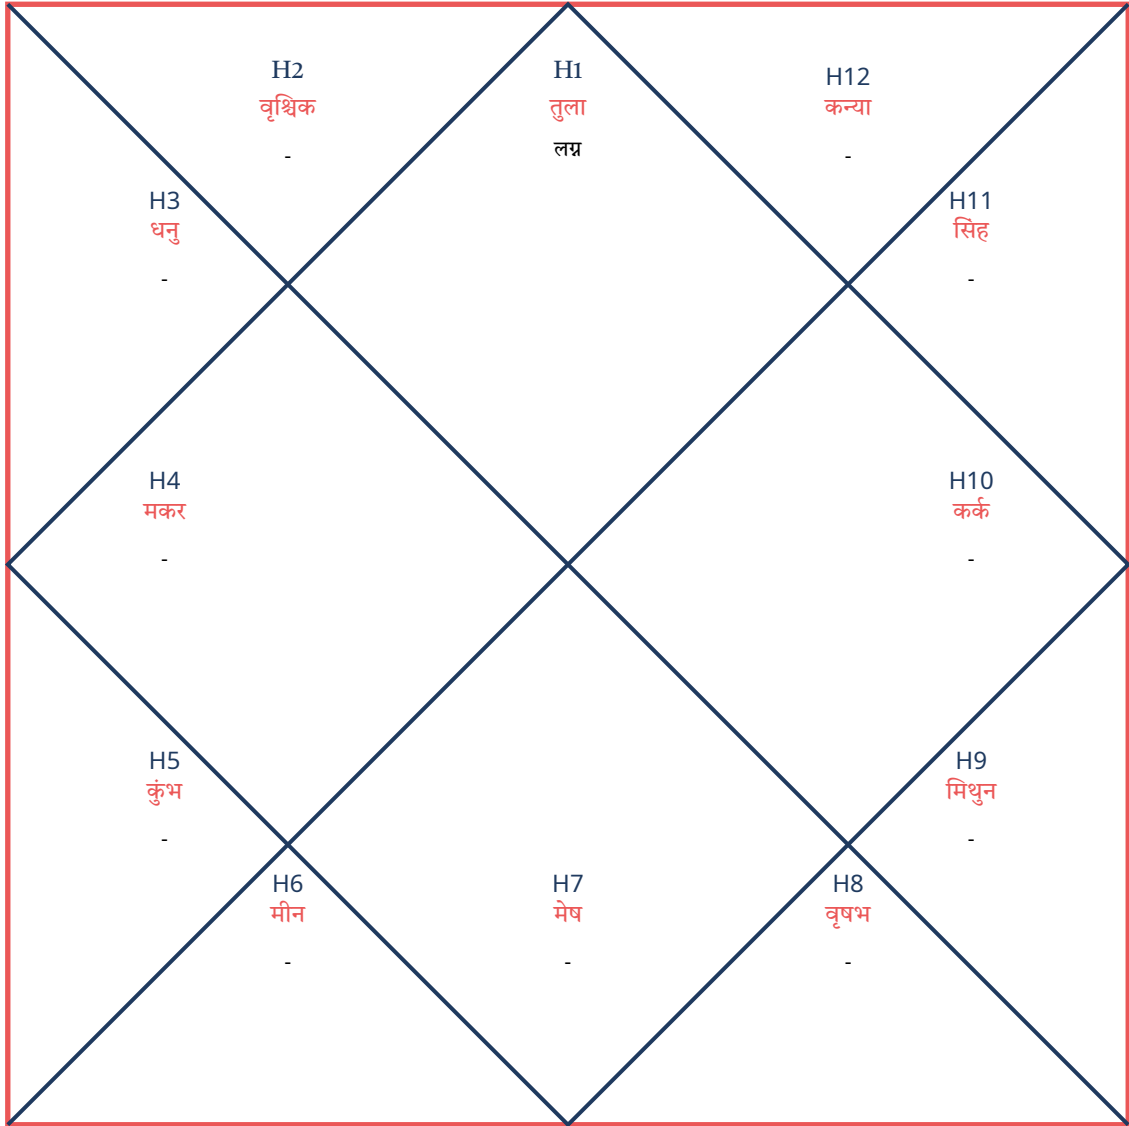

There are 11 Karanas (7 movable, 4 fixed) that repeat in a cycle. The Karana at birth reveals subtle influences on the native's actions.

साडेसाती - Complete Guide

What is साडेसाती?

साडेसाती is a 7.5-year period when शनि transits through the 12th, 1st, and 2nd houses from the natal चंद्र. It is a time of karmic reckoning, growth through challenges, and spiritual maturation.

Three Phases

- First Phase (12th from चंद्र): Expenses, sleep issues, foreign travel, mental stress
- Second Phase (1st from चंद्र): Health issues, emotional challenges, identity crisis
- Third Phase (2nd from चंद्र): Financial pressure, family issues, speech problems

Benefits of साडेसाती

While challenging, साडेसाती is a period of immense karmic cleansing. It strips away illusions, builds resilience, and accelerates spiritual growth.

Remedies

- Chant Shani mantra: Om Praam Preem Praum Sah Shanaye Namah
- Light sesame oil lamp under Peepal tree on Saturdays
- Wear blue sapphire after consultation
- Feed the poor, especially on Saturdays
- Recite Hanuman Chalisa daily

KP Astrology System

Introduction to Krishnamurti Paddhati

KP (Krishnamurti Paddhati) is a modern system of astrology developed by K.S. Krishnamurti in the 20th century. It uses stellar subdivisions (Nakshatra and sub-lords) for precise predictions. KP divides each sign into 249 sub-divisions for pinpoint accuracy.

Key Concepts

- 249 Sub-divisions: Each Nakshatra (13°20') is divided into 9 sub-parts ruled by different planets
- Sign Lord: The ruler of the sign in which a planet or cusp falls
- Star Lord: The ruler of the Nakshatra in which it falls
- Sub Lord: The ruler of the sub-division within the Nakshatra
- Cuspal Sub Lord: The most important factor for event prediction
